QUALITÀ DI TAGLIO

Ricerca e sviluppo di prim'ordine per prestazioni di taglio superiori. Le catene Sherwood presentano caratteristiche che aumentano l'efficienza del lavoro e riducono al minimo fatica e vibrazioni.

SISTEMA DI LUBRIFICAZIONE

- 1 Il pattern garantisce riduzione di attrito e migliore lubrificazione generale.
- 2 Il foro serbatoio distribuisce l'olio ai collegamenti di trasmissione.
- 3 Il sistema di canali funziona come una lubrificazione a spruzzo.

AFFILATURA PERFETTA

Le catene Chisel Sherwood presentano su ogni dente di taglio il segno di indicazione dell'angolo di affilatura, per avere sempre un risultato perfetto.

NUOVO DESIGN

Il nuovo design "a forma di cuneo" crea notevoli vantaggi ed esalta le caratteristiche delle catene Sherwood migliorandone notevolmente le capacità di taglio.
